Subject: RE: Request for FFA Scoping Meeting Availability

---

Hi Richard,

March 9th is the only date that works for us. I will send out a webex meeting invite and include you and Helen. Teams doesn't work so well for us.

Thanks,  
Chris

Subject: [Non-DoD Source] Request for FFA Scoping Meeting Availability

Morning Chris and Dan,

Helen and I were hoping to have a chat with you regarding the FFA Scope and some of the expectations USACE and EPA will have going into discussions. Most of the legal stuff is boilerplate, so attorneys can hammer those details out. I like to include myself in attorneys' work about as much as I like them including themselves in mine, haha. Instead, we'd like to sit down to discuss how USACE's current work fits into the larger site strategy, the current structure of the OUs and what that means for work going forward and future investigations, what EPA's expectations are regarding the technical aspects of the FFA, and the possibility of a site visit around the time of the GtG with the Yakama in April. Pretty general discussion between RPMs, for now, so we can all get a sense of where we all stand. I expect this to be the beginning of many more meetings during the FFA process, but hopefully we can get things started on the right foot.

I've been looking at our availability for a 1-hour meeting before the listing, and it looks like the following dates are good for Helen and I.

2/28 - After 1pm

3/1 - between 10am-12pm

3/2 - 11:30am-12:30pm

3/9 - 3-4pm

Let us know if these times work for you and we can set up a Teams call. Have a great weekend!

Rich Francis
